Skills

Functional and non-functional testing;
Exploratory testing; Smoke testing;
Regression testing; Repeated testing;
Requirements analysis; Mobile testing;
GUI/Usability testing;
Cross browser testing;
Understanding of the test design techniques:
Equivalent partition,
Analysis of boundary values,
Compliance matrix,
Experience in creating test documentation:
checklist, test case, bugreport.
Understanding of software development methodologies:
Agile (Scrum, Kanban), Iterative model, V-model, Waterfall model.
Basic knowledge of API, HTML and CSS.

Technical Skills

JIRA;
TestRail;
Android;
Unix (basic);
WireShark (basic), Postman (basic);
JMeter (basic);
Microsoft SQL; PostgreSQL;
Selenium+Java+TestNG.
WebdriverIO+JS+Mocha (Basic);
JavaScript (Basic). Python (Basic).

Languages:

Russian - native, Ukrainian - fluent,
English – Intermediate

KONSTANTIN LAZEBNYI

QA Engineer

WORK EXPERIENCE

August 2021 – To these days.

Integrio systems. QA Engineer. Project: CAM TRAN – Jive.

Manual testing;
Black-box, gray-box testing;
Exploratory testing;
Functional testing;
GUI Testing and Usability Testing;
Sanity testing; Repeated testing;
API testing (Postman);
Creation of test documentation;
Automation testing;
Develop of the automation test framework (Selenium+Java+TestNG);
SQL - PostgreSQL;

2021 5 months.

Apibest. QA Engineer. Project: Xenforo Video-chat plugin.

Manual testing; regression testing;
Black-box, gray-box testing;
Exploratory testing; Functional testing;
Cross browser and cross platform testing;
GUI Testing and Usability Testing;
Repeated testing; Smoke testing;
Creation of test documentation;

March 2020 - November 2020 (9 months)

QA Engineer. Project – LaWay

Manual testing; Functional testing;
Exploratory testing; Smoke testing;
Repeated testing; Regression testing;
Mobile testing; GUI Testing and Usability Testing;
API testing (Postman);
Creation of test documentation

EDUCATION

Kharkiv College of Medical Equipment. Specialty - Medical equipment and electronics.

Courses: Basic software testing module. 2020

Software testing; Practical SQL; UNIX and networking basics; Stress Testing;
Web servers and Web services.

PERSONAL QUALITIES

Concentration, attention to details, stress resistance, flexibility of thinking, creativity in achieving results, ability to learn quickly.
